ABOUT ME

Seeking a position at [company] as a Software Engineer Intern to explore my career options in the technology field. As a motivated student I learned source control with Git and C# using ASP.NET CORE that I can apply to on-the-job training.

EDUCATION

2019 - 2023 (expected) • Western Oregon University - Monmouth, OR
BS Computer Science - x Credits Completed

EXPERIENCE

Mar 2022 - June 2022
Turtle Project - Western Oregon University - Monmouth, OR
Software Developer

- Worked as a team to create and maintain a website and an application for both IOS and android to help create an easier way to report and research Oregon's native freshwater turtles.
- Attended Weekly Team Sprint Review Meetings in which we discussed the progress we made throughout the week with our product owner to showcase what we worked on to get the approval to put those features out to the public or get feedback on what could be improved.
- Attended Weekly Team Project Planning Meetings over video conference where we would decide and who would be working on which high priority tasks to be able to showcase during our next Sprint Review.
- Collaborated with other developers to work on tasks together or assist each other if need be.
- Complete pull request from other developers to ensure that the code that is going to be merging back into the main branch works as intended for myself.

SKILLS

Unix and Linux | SQL | C# (ASP.NET CORE) | HTML | CSS | JavaScript | Git | Problem Solving | Flexibility | Dependability | Credibility | Ambitious | Initiative | Accountability | Calm Under Pressure | Analytical Thinking | Collaboration | Effective Listing | Persistent
